

Central Texas Guide to School Readiness FREE Training!

Central Texas is leading the state in developing a public-private partnership to ensure that our children enter their Kindergarten year with the foundation they need to succeed!

A collaborative group of teachers and other early childhood experts have developed a Central Texas Guide to School Readiness. Based on TEA's Pre-K Guidelines, the Guide includes a rubric for measuring a child's progress toward these milestones and identifies creative strategies for authentic assessment, instruction, and Response to Intervention (RTI.)

Come to this FREE training to learn to use this helpful, practical tool. You will leave with a FREE assessment and instruction tool that will support your implementation of the new Pre-k Guidelines.

This training is offered at NO COST to participants, so sign up now!

**Open to pre-k, preschool, childcare, and Head Start teachers
Check the Website for Workshop Locations**
