

MATH MATTERS *for* **EVERYONE**

Students who take **2** math courses beyond Algebra **2** are **3** times more likely to graduate from college.

$$2+2=3$$

WANT TO MAKE MORE MONEY AFTER HIGH SCHOOL?
More math in high school + college degree or industry certificate = more money later

In Advanced Math classes, you will:

- Gain confidence in yourself as you take risks and overcome challenges.
- Develop new lasting relationships.
- Learn higher skills needed to prepare you for high-demand, high-wage jobs.
- Connect with teachers who believe in your ability to succeed.

What can you do?

- **Take math all 4 years in high school**, including classes beyond Algebra 2.
- **Take rigorous math courses** that align with your career aspirations. Ask your school counselor about the range of courses available.
- **Stay diligent and stick with it!** Get help from your teacher, a tutor, or other adult for support.
