

MATH MATTERS *for* EVERYONE

WANT TO MAKE BIG MONEY AFTER HIGH SCHOOL?

More math now = more money later

Get AMP-ed for Advanced Math Pathways

GET AMP-ed

- to make more money.
- to gain critical-thinking and problem-solving skills.
- to learn from teachers who believe you can be successful.
- to build confidence.
- to make new friends.

Why think about Advanced Math now?

Only 1 in 5 students whose last math course was Algebra 2 earned a 2- or 4- year college degree or an industry certificate (like a veterinary technician, electrician, personal trainer, or cosmetologist certificate) within 6 years of graduating high school.

Taking math classes beyond Algebra 2 in high school means you need to start thinking about advanced math classes now in middle school.

What can you do?

- Do your best in math so you can be on the accelerated path toward completing Algebra I in 8th grade.
- Take math all 4 years in high school, including classes beyond Algebra 2.
- Stick with it and don't be afraid to get help from your teacher, a tutor, or another adult.
